DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Makino et al. (U.S. Patent No. 5,634,900).

Makino discloses a powdered medicine multi-dose device comprising: medicine storage chamber 3, a medicine container unit 10, a medicine-guiding unit 5, means communication with a hole 3b, and a pump unit 8 (see figure 1).

Allowable Subject Matter

3. Claims 3-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to show the art with respect to a powdered medicine multi-dose device: Oki (U.S. Patent No. 5,921,236), Oki (U.S. Patent No. 5,996,577), and Matsugi et al.
